

## **Sand Ridge Jr High Volleyball Disclosure**

It is a privilege and a responsibility to be a student athlete. When we put on a school jersey, we are representing a team, school and community. Student athletes will adhere to the academic and citizenship requirements and respect teammates, peers, coaches, refs and other adults. This includes actions on social media. Be respectful of yourself and others.

Attendance at practice is vital. Practices are closed to viewers. Our practices are Mon-Fri 3-5pm. Except for early out Wednesdays, practices will be from 2-4pm. Just like missing days of school, a player missing practice will result in them falling behind in their development. If a player misses practice the day before a game, they may not be allowed to start or possibly play in the next game.

**\*We understand there may be instances where an athlete may have to miss practice. Please communicate that with coaches no later than the day prior.**

Athletes must travel to and from away games on the bus.

**\*For special circumstances please make arrangements with the coaching staff the day before the game.**

**Playing time is a privilege not a right!** Athletes are **NOT** entitled to a starting position on this team. Players must maintain proper behavior on and off the court. If there is a concern about playing time, encourage your athlete to speak with the coach. If after the athlete has spoken with the coach, and they still have an issue, a meeting may be arranged between the parent, athlete, coach and an administrator. Meetings will not be arranged unless the athlete has spoken with coaches first.

Parents we appreciate all your support. Please remember, sharing negative views about players and coaches can and will damage our team unity. During games if negative comments cannot be contained you will be removed from the game.

Red shirts practice with the team. They are required to get a physical to participate in practice.

Physicals need to be uploaded on the "You made the team" site.
